Company concepts, College projects in cooperation with industry or craft, community projects or the Local Wisdom of particular hilltribes and other indigenous groups of Southeast Asia across national borders are central to the 7th Symposium GREEN CYCLES in Bangkok. Different projects and view angles will be highlighting the complexities in achieving wider sustainability in textiles, clothing and fashion between crafts and industry. Ecological aspects and the requirements for ethically correct working conditions will be expanded with the more overriding issues of visionary approaches in developing strategies to connect design and making with economical prospects.

The dialogue between East and West will be further enhanced with the afterthoughts symposium GREEN CYCLES 2016 in Hamburg. Through the cooperation of the Goethe Institutes in Thailand and Vietnam with the HAW Hamburg, GREEN CYCLES in Hamburg will offer guest presentations of two Vietnam-based community projects Hoa Ban+ and Hause Nü - Pack to the Roots, pointing out examples of preserving and translating local knowledge into business opportunities. Further to the international presentations HAW students and teaching staff, who have given presentations at GREEN CYCLES Bangkok, will play the discussions back to Hamburg.

GREEN CYCLES is addressing students, teaching staff, professionals and an interested public.

Creative Industries East and West go Sustainable Business

In 2016 the well-established symposium GREEN CYCLES – Corporate Social Responsibility in the Textile Cycles is going international. GREEN CYCLES will be the opening event of the regional textile project IKAT / eCUT hosted by the Goethe-Institutes of Southeast Asia in 2016/2017. The main symposium will take place in the Bangkok Art & Culture Center and focuses on the interrelationships of Creative Industries East and West regarding sustainable business options and / or development possibilities.

GREEN CYCLES Afterthoughts will be held in Hamburg 27th May 2016 in the Auditorium at Armgartstrasse 24 with a special focus on two Vietnamese Community Projects.
